

	Tyre Management Policy	TPL07 Issue: 001 Date: 11/03/2021
---	-------------------------------	--

Policy brief and purpose

K Rouse Civil Engineers Ltd tyre policy is in place to ensure that all vehicles function with the correct tyre use and condition. Tyre records shall be kept for all vehicles.

Scope

All employees who drive company vehicles must follow the policy elements. Regular checks must be made on tyres to ensure safe use of the vehicle and that all the policy steps are followed.

Policy elements

- Employees, technicians, and managers must monitor tyre wear and pressure regularly.
- Tyre wear must be recorded on service and MOT records.
- Correct tyres are used as per vehicle and use specifications.
- Do not mix tyres on vehicles (vehicle and use dependant).
- Tyres on same axle must be identical in size and construction.
- Records are kept for tyre repairs, disposal, and recycling.
- Approved driver training will be given to employees where necessary.
