

	Load Safety Policy	TPL14 Issue: 001 Date: 11/03/2021
---	---------------------------	--

Policy brief and purpose

This policy is in place to ensure safety on loads on vehicles is adhered to and guidelines set out by the department of transport are abided by.

Scope

K Rouse Civil Engineers Ltd has put this policy in place to make sure all employees driving company vehicles and carrying loads are doing so in the appropriate manner and in accordance with the department for transports code of practice.

Policy elements

K Rouse Civil Engineers Ltd refers all employee drivers carrying loads on company vehicles to the gov.uk department for transport code of practice for safety of loads on vehicles third edition document. Prior to this it is vital that any employees first comply with the following checks:

- Check any securing equipment is tagged and inspected and there are no visible defects.
- Complete daily checks on the vehicle to be used and make sure it is fit for purpose with no defects.
- Communicate with the transport department in regard to the route to be taken and make sure this has been properly planned.
- Make sure you have the correct training and experience before carrying out the transportation.
